No... Kim...

Hey, Alice?
About the man with the glasses... Shouldn't we help him?

Did you forget why we're doing this? We're not doctors!
But I never thought about murder!
How naive. You should've expected at least that much.

If you really want to help, you can do it alone.
If you get caught by the police, it's only bad for you, right?

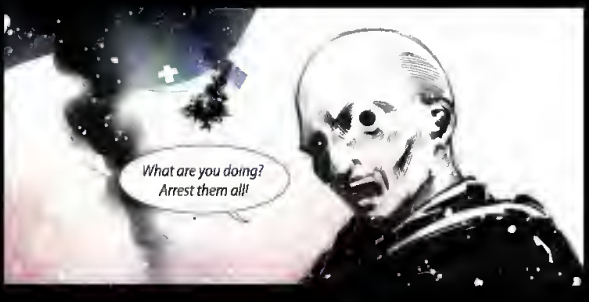
So shut up and follow me! If you don't want to end up like Jackson

CRASH

.....
The helicopter has been shot down! All forces, withdraw immediately!
Click
SCREECH

BOOM
Those bitches.
Who do you think
you're messing with!

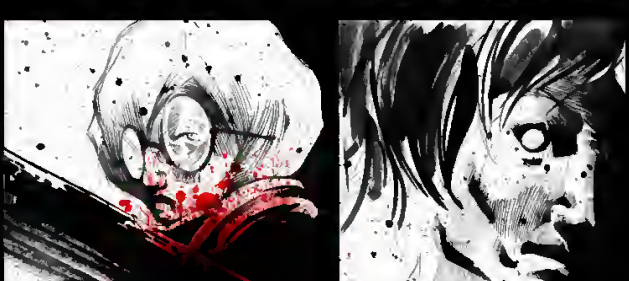
CRASH



What are you doing?
Arrest them all!

She's still alive!
Leave her.
What?
Arg... Er...
She should've listened to me. Let's hurry. We're already late. The police will be here soon.

Move.



You could've died, Prosecutor Cooper. You crazy old man.
Stop nagging. Just don't forget to write my report.
I should just quit while I'm at it.
Stop fooling around and get ready. We're entering the hospital as soon as I finish smoking.

To be continued...
